

## **DONALD R. PAUL**

### **EDUCATION**

North Carolina State University, B.S., Chemical Engineering, 1961

University of Wisconsin, Ph.D., Chemical Engineering, 1965

### **PROFESSIONAL EXPERIENCE**

Research Chemical Engineer, Chemstrand Research Center, Inc., 1965-1967

Chemical Engineering Faculty, University of Texas at Austin, 1967-present

Chairman, Chemical Engineering Department, University of Texas at Austin, 1977-1985

Editor, *Industrial and Engineering Chemistry Research*, 1986-present

Director, Texas Materials Institute, University of Texas at Austin, 1998-2011

Ernest Cockrell, Sr. Chair in Engineering, University of Texas at Austin, 2002-present

### **HONORS AND AWARDS**

1988 Elected to National Academy of Engineering

1994 Distinguished Engineering Alumnus Award (North Carolina State University)

2000 Distinguished Service Citation (University of Wisconsin)

1999 Elected Corresponding Member of the Mexican Academy of Sciences

2005 Alan S. Michaels Award for Innovation in Membrane Science and Technology (NAMS)

### **RESEARCH INTERESTS**

Interests include the broad areas of polymer science and engineering and chemical engineering. Current research involves various aspects of polymeric materials including polymer blends; membranes for water and gas purification, drug delivery, packaging, etc.; polymer nanocomposites and polymer processing.
